Rule objective

The objective of amendment 35 to Part 1 is to insert new definitions, and remove existing definitions as part of a general rule fix up project.

Extent of consultation

A Notice of Proposed Rulemaking, NPRM 06/02, containing the proposed changes to Part 1 was issued for public consultation under Docket 5/CAR/3 on 13 April 2006.

The publication of this NPRM was notified in the Gazette on 13 April 2006 and advertised in the daily newspapers in the five main provincial centres on 13 April 2006. The NPRM was published on the CAA web site and mailed to stakeholders including representative organisations who were considered likely to have an interest in the proposal.

A period of 41 days was allowed for comment on the proposed rule.

Following public notifications of this NPRM, a supplementary NPRM proposing amendments to Part 67 Medical Standards and Certification was Gazetted on 11 May 2006 with a submission closing date of 8 June 2006. This proposal was distributed to all DME's via email.

A period of 29 days was allowed for comment on this proposed rule.

Summary of submissions

Two submissions were received by the closing date of the original NPRM issued 13 April 2006, both of which were in regard to rule 121.91- Refuelling and defuelling operations. In addition to the comments received from industry, a comment was also received from within the CAA in regard to Part 133 - Helicopter External Load Operations.

One submission was received in relation to the supplementary NPRM issued on 11 May 2006 proposing changes to Part 67.

No submissions were received on the proposed amendments to Part 1. Minor editorial corrections were made to the proposed rule changes after further internal CAA review.

The rule as amended with editorial corrections was then referred to Parliament's Regulations Review Committee before being signed by the Minister for Transport Safety.

Examination of submissions

Submissions may be examined by application to the Docket Clerk at the Civil Aviation Authority between 8:30 am and 4:30 pm on weekdays, except statutory holidays.

Insertion of Amendments

The amendments to the rules in this Part are reflected by the revocation of existing definitions and the insertion of some new definitions.

Effective date of rule

Amendment 35 to Part 1 comes into force on 25 October 2007.

Availability of rules

Civil Aviation Rules are available from–

CAA web site: <http://www.caa.govt.nz/>

Freephone: 0800 GET RULES (0800 438 785)

Part 1 Amendments

1.1 General Definitions

The definition of Class 3(a) fuel is revoked.

The definition of Class 3(b) fuel is revoked.

The following new definition of Class 3.1A – Flammable liquid is inserted after the definition of Class 2 microlight aircraft:

Class 3.1A—Flammable liquid means a liquid that has a flash point of below 23°C and has an initial boiling point (IBP) of a maximum 35°C, and includes petrol based products:

The following new definition of Class 3.1C – Flammable liquid is inserted after the definition of Class 3.1A – Flammable liquid:

Class 3.1C—Flammable liquid means a liquid that has a flash point at or above 23°C, but at or below 60°C, and includes kerosene based products:

The following new definition of Class 3.1D – Flammable liquid is inserted after the definition of Class 3.1C – Flammable liquid:

Class 3.1D—Flammable liquid means a liquid that has a flash point of above 60°C, but at or below 93°C, and includes diesel products:

Consultation Details

(This statement does not form part of the rules contained in Part 1. It provides details of the consultation undertaken in making the rules.)

A Notice of Proposed Rulemaking, NPRM 06-02 Omnibus Rule Fix Up, containing the proposed rules was issued for public consultation under Docket 5/CAR/3 on 13 April 2006.

A supplementary NPRM proposing amendments to Part 67 Medical Standards and Certification was published under the same docket number on 11 May 2006.

A total of 3 submissions were received by the closing date of the original NPRM and 1 submission was received in relation to the supplementary NPRM. No submissions were received on the proposed amendments to Part 1.

The comments and all background material used in developing these rules are held on the docket. The docket is available for public inspection at Aviation House, 10 Hutt Road. Persons wishing to view the docket should contact the Docket Clerk on Phone 64-4-560-9603 and ask for docket 5/CAR/3.
